

Perfect Modern Townhouse by Martin Friedrich Architects

Living right next to your best friend, brother, or anyone close to you would be quite amazing, right? Take a look at this outstanding modern townhouse and see how to make it happen!

Brighton Townhouses are two modern homes designed by [Martin Friedrich Architects](#) in Brighton, Australia. What amazes me about those modern townhouses is this perfectly clean and seriously elegant design. This is definition of elegance in architecture if you ask me. White facade color fulfilled with green tones of palm trees and other vegetation. Plus, blue Australian sky makes it look even better.

But, definitely one of my favorite features of this gorgeous modern home is how it's actually made of 2 completely separated houses. Which is perfect for 2 close families who want to live together but still have some privacy. It is perfect solution. And this design. I just can't stop looking at it. From modern facade to beautiful backyard and outstanding interiors. I mean, just look at those stairs. Perfect modern townhouse. **Almost like this impressive dream home!**

What do you think? Do you like those modern houses?
